Re: Uniform Policy

We have received a fair amount of questions regarding the uniform policy. On behalf of the Competition Committee, I wish to inform you all of this policy. It is in Policy 6:02:17.

6:02:17 HOME TEAM UNIFORM COLORS

As a general rule, the home team should wear their darker colored jersey and the visitors their lighter one. If there is still a conflict, the home team must change.

This memo is sent out because everyone will interpret it in their way. However, this is how it is to be read and understood. The best way to educate you is by giving an example of what this translates into or means:

The home team should be in their dark colors (socks and jersey). The away team must be in their lighter colors (socks and jersey). Therefore, if a team has red and black as their colors, their home jersey will be their black kit and their red kits will be their away. If the aforementioned team visits another team whose colors are red and white. Making it so the home team is red and the away team is red. The home team shall change to their white colors. This shall be the only time when a home team is required to change their uniforms. Therefore if a team is the away team and their colors are blue and white, they shall expect to wear their white kits and not their blue kits. A traveling team shall not out of disrespect to the opponent, officials, and to the game wear their dark uniforms and expect the home team to change because the traveling teams doesn't want to wear their lighter colored kits or for another other reason.

Please respect the game by adhering to this simple policy.
